Brewing Happiness Together

Our mission is to provide a one-stop shop for all the Brewing needs by providing utmost significance to Quality Products & exemplary Customer Service

Headquartered out of Dubai, Brewing Gadgets had the humble beginning in 2011. We have strived to offer the finest coffee brewing gadgets to extract that perfect shot of coffee. Our solutions encompass a wide range of products and brands – espresso machines, grinders, barista tools, brewing contraptions and other accessories.

Early Days

Our founder, fourth generation of a family in the Coffee business started his career as a Barista and went on to win the India Barista Championship in 2006. In the later years, he served as a Jury in the esteemed UAE and India Barista Championships. With technical and practical knowledge of day-to-day Café business operations, he soon realized the need for a centralized solution to help customers experience the third wave in the Coffee world. That was our Aha!! moment and the birth of Brewing Gadgets.

Our Business Model

In three words, Brewing Gadgets is "Big On Service". We pride ourselves in being one of the most innovative companies in the Middle East and Asia Pacific world of Coffee. All this with a hallmark of excellence in quality and customer service.

- When it comes to quality, we treat our products like "Rocket Science" and deliver only the best. Our suppliers too believe and contribute equally to this motto
- As the distributors of most renowned brands in the market, we have a competitive edge in providing the latest models and the best pricing to our customers
- Our consultants come with rich industry expertise to facilitate the unique requirements of every customer
- We strive to provide our customers with a commendable service both pre and post-sales
- We partially apportion our revenue for several charitable works

It is this attention to details and pool of knowledge that has seen our existing clients coming back to us for more and with a growing list of new customers coming into our fold.

A Big Thanks

We have grown our team with the addition of our new office in India and will continue to serve the community with utmost care and honesty. We thank our customers and partners for their continued trust and business with us. Last but not the least, a big shout out to the BG team for all their hard work and dedication.

We are just a call away for all your Brewing needs. Happy Brewing!!

Brewing Gadgets Team

BARATZA

BARATZA
ENCORE BLACK

ID: 485-230V

The Baratza Encore is the ultimate entry-level grinder for your craft coffee journey – the key difference to the taste in your cup.
It provides consistent grinds for brew methods from espresso to French Press and everything in between. Straightforward controls make your daily routine simple and easy.

BARATZA
ENCORE WHITE

ID: 410-230V

The Baratza Encore is the ultimate entry-level grinder for your craft coffee journey – the key difference to the taste in your cup.
It provides consistent grinds for brew methods from espresso to French Press and everything in between. Straightforward controls make your daily routine simple and easy.

BARATZA
FORTE BG

ID: 1086-230V

Winner – Best New Product, Commercial – Specialty Coffee Association Expo, 2013 This is the grinder your barista uses to make those pour-overs you enjoy at the café. Designed as a commercial solution to multi-offering pour-over bars, the Forte BG is a feature-forward, high-capacity, near-bulletproof grinder.

BARATZA
FORTE AP

ID: 1085-230V

The Forté AP (All Purpose grinder) is a compact, commercial grade grinder, dedicated to grinding for ALL brew methods.
Designed as a commercial solution for low-volume cafes, a rock-solid espresso grinder with high-capacity and feature-density. Operated by a touch screen, has two grind modes: by time and by weight. Each modes carries three presets and a manual option, giving you plenty of ways to conveniently switch from one dose to another

BARATZA
SETTE 270

ID: 11270-230V

The Sette 270 sets the standard for high performance home espresso grinders with grind by time functionality.
Offering 30 responsive macro-adjustments plus 9 marked settings of stepless micro-adjustment to let you dial in your shots time after time. These are directly connected the ground-breaking Sette series gearbox technology to provide near zero retention and a quick-accessible cleaning and maintenance process.

BARATZA
SETTE 270WI

ID: 11270Wi-230V

The Sette 270Wi is the first-ever home grinder offering grind-by-weight functionality directly into your portafilter or grounds bin. Dosage is calculated and controlled automatically by a precise digital scale utilizing Acaia weighing technology The i in Wi stands for intelligent – the grinder quickly calculates and self-adjusts after changes in coffee bean or grind size.

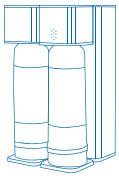
BROOD

DRNX DUO - NITRO DISPENSER DOUBLE TAP

ID: NV2PXDRNX

FUNCTION: COLD NITRO & COLD STILL
POWER SUPPLY: 200 240 V / 50 HZ
PHASE: 1
AMPS: 1.8A
DIMENSIONS W/H/D: 11.75 / 14.75 / 19 IN
WEIGHT: 36.74 Kg
DISPENSING CAPACITY: 62 L/HOUR
COFFEE TEMPERATURE AT TAP: 36°F +/- 3°F
INTERNAL TUBING CAPACITY: 20 OZ
PRESSURE AT TAP: 34 PSI

Meet the world's fastest nitro infusion system. Engineered with the same advanced cooling technology as our tankless DRNX machine, DRNX DUO is outfitted with two taps instead of one to cut your service time in half.



BEST WATER TECHNOLOGY

BWT

BESTAQUA 16 ROC COFFEE

ID: 125255111

High permeate capacity of 120 - 180 l/h (depending on the model).
High salt retaining rate of > 97%.
High permeate yield of up to 50%.
Adjustable and monitored output quality avoids corrosion risk.
Very compact and service-friendly.
Simple filter replacement without using tools.

BWT

BESTAQUA 14 ROC COFFEE

ID: RS82M01A00

Innovation of the Year 2019, sets completely new standards for optimising drinking water for the production of coffee, coffee specialities and other hot drinks.

BWT

BESTPROTECT M SET & CARTRIDGE

Bestprotect M Cartridge ID: 125501405 + HEAD

The BWT bestprotect filtration solution, using BWT's advanced technology, provides excellent protection for the equipment used to produce hot drinks in the food service sector

BWT

BESTPROTECT XL SET & CARTRIDGE

Bestprotect XL Cartridge ID: FS28N00A00 + HEAD

It is specially designed to achieve an optimum pH value and an excellent water mineral balance – both crucial factors in great-tasting coffee and espresso. BWT bestprotect is extremely effective against limescale and gypsum residues.

BWT

BESTMAX PREMIUM XL SET & CARTRIDGE

Bestmax Premium XL Cartridge ID: FS2AP00A00 + HEAD

PREMIUM taste in cup and mug
Well-balanced mineralisation in favour of magnesium
Highest efficiency with 5-way filtration
Including filtration of the bypass water

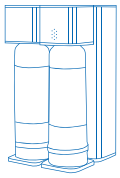
BWT

BESTMIN M SET & CARTRIDGE

Bestmin Cartridge ID: FS24M10A00 + HEAD

The balanced combination of natural minerals in the BWT bestmin filter adds the correct level of minerals to the water used in the food service sector, achieving an optimum brewing and full-taste experience for hot and cold drinks.

BREWING® GADGETS



BWT

BESTTASTE 15 SET & CARTRIDGE

Besttaste 15 Cartridge ID: 125501410 + HEAD

Activated carbon filter system with integrated high-performance prefiltration
Particularly well suited to mains water containing heavy concentrations of solids and where demand for water is high
Perfect for optimising water for use in the gastronomy

BWT

BESTTASTE 20 SET & CARTRIDGE

Besttaste 20 Cartridge ID: 125252022 + HEAD

Integrated high-performance prefiltration of solids
High filter capacity
High-quality activated carbon
Activated carbon polypropylene fleece for consistently crystal-clear water

BREWING® GADGETS

BWT

BESTHEAD FLEX

ID: FS00Z20A00

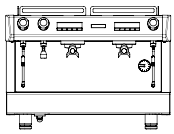
Filter head with innovative FLEX connector technology
Fits all BWT water+more filter cartridges
With integrated venting valve

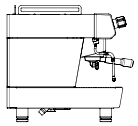
BWT

LIMESCALE PAD - BESTSAVE L

ID: KS12I00A00

Usable in all compact coffee and vending machines with built-in water tanks.
Easy to use and reliable.
The very best quality drinks, consistently, every time Safe and effective protection against limescale Less maintenance and descaling required.





CONTI MONACO

NL EVO

Color available: Black
Coffee groups automatic cleaning (after 50 coffees)
Power save mode (when not used)
4 programmable doses and 1 continuous does per group
Pre-infusion possible on the espresso buttons (1 and 2 cups)
Removable basin
2 versions: Espresso (Height under spout : 80 mm) and Tall cup (Height under spout : 148 mm)
Copper boiler manufactured under CE regulations
Boiler auto refill and protection of the heating element
Stainless steel and aluminium body
1 hot water outlet
2 articulated steam outlets (stainless steal)

DIEDRICH
DR-3 COFFEE ROASTER

Batch size for the DR-3 is approximately 6.6 lb (3 Kg) of green coffee.
Hourly capacity is approximately 12 Kg/26.4 lbs per hour of green beans. In addition to full batch capacity, our roasters are also designed to roast half batch.

DIEDRICH
IR-5 COFFEE ROASTER

The IR-5 is one of our most versatile roasting machines. It can still handle small batches down to 250 grams (½ a pound), but it can also handle a 5kg (11 lb) load. And while the finish might be subtle, there's nothing subtle about this roaster.

DIEDRICH
IR-12 COFFEE ROASTER

The IR-12 is the biggest machine in our IR-Series. Using our innovative infrared technology, it can handle everything from half a pound to 12 kilograms (26.4 pounds) with complete precision. Like all our roasters, the IR-12 can significantly save energy and reduce the amount of harmful gas exposure to your coffee.

LA MARZOCCO

LINEA CLASSIC S

Built to embody the spirit of three words, reserved, reliable, and consistent, the Linea Classic S can be trusted to be a dependable partner in any coffee program. New features provide baristas an easier coffee making experience, while also increasing the reliability of a machine which has already set the standard in the industry. Timers allow baristas to track the brew time of espresso. Dual PID provide consistent temperature in the separate steam and coffee boilers.

LA MARZOCCO

LINEA PB

The Linea PB features the iconic La Marzocco polished stainless steel body, updated with simplified lines and a lower profile, equipped with exclusive, user friendly interface software that gives the barista direct functional control over boiler temperature, brewing volume, hot water tap dose, auto-back flush as well as other options.
The Linea PB's lower profile and increased work area also make it practical, without abandoning world renown Italian design.

LA MARZOCCO

GB5 S

The new GB5 S features a revamped visual identity which modernizes the machine without sacrificing the look, premium feel, or dynamic elegance. The two red lilies on the side shields recall the company's Florentine heritage while the front panel has been redesigned to increase group visibility.
The second generation GB5 is the first series of La Marzocco machines equipped with a water sensor that measures the conductivity and hardness of water as it enters the machine.

BREWING GADGETS®

LA MARZOCCO

STRADA AV

Featuring iconic italian design and user-friendly interface.
Auto-volumetrics ensure repeatability and consistency in high-volume settings.
High performance steam wands that are cool to the touch.
Making it possible to update the firmware.

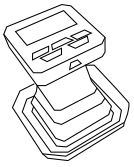
LA MARZOCCO

PORTAFILTERS

High grade stainless steel, double fixed spout and bottomless portafilter. This portafilters fits all La Marzocco Espresso Machines.



LIGHTTELLS

CM-100 PLUS COFFEE ROAST ANALYSER

ID: CM-100+

CM-100plus, the BEST portable coffee roast analyzer, is a high accuracy and stable meter which helps you to classify roasting degree or the delta between whole bean and ground to get better understanding of the roasting curve and roasting result for better quality control.

LIGHTTELLS

CM-200 - COFFEE ROAST DEGREE ANALYZER

ID: 10600UK

The CM-200 portable Coffee Roast Degree/Uniformity/ Ground-Size Analyzer is designed to measure the roast degree, roast uniformity for both whole bean and ground bean, and it can also analyze the distribution of ground size. It is a useful portable tool with its user-friendly interface, accurate performance and reliable quality.

LIGHTTELLS

AW-600 WATER ACTIVITY ANALYZER

ID: AW-600

The AW-600 portable Water Activity Analyzer is designed to measure the vapor pressure of free water escaped from samples to the air in the test chamber to predict the condition of growth of bacteria, there are two measurement mode: Quick Mode and Equilibrium Mode. The AW-600 is a compact, portable, easy to use, reliable and robust designed product.

LIGHTTELLS

MD-500 MOISTURE-DENSITY ANALYZER

ID: MD-500

The Lighttells MD-500 is a capacitance based Moisture and Density Analyzer. It supports cherry, parchment, green beans and roasted beans measurement. Compact form factor design allows you to carry it everywhere you need for measuring moisture and density.

BREWING® GADGETS

MAHLKONIG

EK43T - BLACK / WHITE COLOR

Special burrs for grinding Greek-Turkish coffee
Suitable for different grinding coffees and different finenesses as e.g. Turkish, espresso and filter coffee

MAHLKONIG

EK43ST - BLACK / WHITE COLOR

The performance and grinding results of the established EK43 within a smaller space-saving corpu
Outstanding particle size spreads feature high extraction rates and the best possible taste
Premium cast steel grinding discs

MAHLKONIG

EK43 & EK43T BURR SET

EK43 BURR SET ID: 303931
EK43T BURR SET ID: 303939

Set of burrs for coffee or spice grinding fitting EK43 and EK43T grinders

MAHLKONIG

SHORT HOPPER

ID: 101388

Short hopper fits Mahlkonig's EK43, EKK43, K30 Vario and K30 Air, and even the Mahlkonig Tanzania grinders. It holds about 500 grams of beans, and stands just about 6 inches tall. If you're into single-dosing your EK43, or you just want a more diminutive hopper, this is the option for you.

MAHLKONIG

EK43 MINI-HOPPER, BLACK

ID: 701553

The EK43 mini-hopper is the perfect accessory for streamlining your EK43 or EK43S for espresso workflow
Includes a spring loaded closing device that will automatically close upon release
The closure can also remain in the open position when you need full access for grinding
The hopper has a total capacity of roughly 250 grams of coffee

MOCCAMASTER

KBGT

Every Moccamaster Coffee Brewer is handmade and individually tested in the Netherlands using only quality European materials.
Dimensions - 7.1 x 12.2 x 15.4 inches.
A unique copper boiling element ensures water will always be in the correct temperature range (196-205 F) for the entire brewing process; this is essential for proper coffee extraction.
Brews a full carafe in 6 minutes.
100% recyclable, from the packaging material to the brewer itself.
ECBC, SCAA, SCAE approved

MOCCAMASTER

KBGT THERMOS FLASK 1.25 LTR

ID: 59861

The Technivorm 1.25 L Thermal Carafe for KBT, KBGT, and CDGT Brewers is an authentic replacement part to be used only with compatible Technivorm products. Made in the Netherlands.

MOCCAMASTER

GOLDFILTER NO. 4 FIT FOR YOUR MOCCAMASTER

ID: 85023

All natural Coffeeflavor
Reusable - permanent - long lasting
Taste the coffee, not the filter
Stainless steel golden foil with titanium hardcoating
Neutral in taste, non absorbent material
Smooth surface with micro-openings
Handle for easy removal
Dishwasher safe

MODBAR

ESPRESSO AV

The product of years of collaborative R&D between Modbar and La Marzocco, and based on R&D from the Linea PB and Linea Mini, Modbar Espresso AV comes with the same level of reliability, performance and temperature stability that made the Linea PB an industry icon.
One under-counter module can support two espresso taps
No additional power required to support two taps
Ideal for high-volume environments
Precise temperature stability, the same as the Linea PB
Simple controls and multi-position programmable lever
Dose by volume, weight or continuously
Auto back-flush and rinse programs
Adaptable drip tray comes with or without a built-in scale

BREWING GADGETS®

MODBAR

STEAM

Recreate a traditional espresso machine with two Steam systems next to your Modbar Espresso, or set up distinct service areas to suit your workflow. We've even seen cafes add Steam (rather than purchasing a second espresso machine) to boost throughput.
Double wall pro touch stainless steel wand to prevent burns
Ergonomic handle designed to match Espresso AV
Two steam tips included
Simple on/off switch controlled by solenoid in the module
Minimal purge required with no steam valve rebuilds
Omnidirectional ball fitting for ambidextrous use
Right-hand side connections for easy service access

THE MORNING

MACHINE

The Morning Machine is the new standard in the home coffee experience. With precision-controls that maximises flavour of each cup. Connected for convenience to deliver the perfect cup of coffee at the touch of a dial.
Features from professional coffee equipment and adapted them for capsule coffee so you can enjoy convenience, consistency and quality like never before.
What better way to brew your coffee than with recipes developed by the roasters themselves? Discover and download your favourite roaster recipes to enjoy the perfect cup. Every single time.

Okka Minio is a state-of-the-art, award-winning Turkish/Greek Coffee Machine that brews Turkish/ Greek coffee in a matter of minutes. Your coffee is automatically brewed at the push of a button after its brewing pot is placed into the machine with coffee and water. Minio can be used with any Turkish/ Greek coffee available in the market and thanks to the advanced technology used, its brewing pot can be washed.

FEATURES:
1-4 cups capacity
Smart overflow prevention system
Washable pot
Ideal brewing at low heat
Sound alert system

NUOVA SIMONELLI

APPIA LIFE 1G VOLUMETRIC, BLACK

Appia Life is created based on the success of the Appia. With its high productivity and high performance, this machine is appreciated by thousands of baristas worldwide. Simple and innovative.

NUOVA SIMONELLI

APPIA LIFE 2G COMPACT-VOL. BLACK

Appia life stands out, not only for its proven reliability but also for the modern style that makes it unique. It is the perfect coffee machine for large companies, coffee shop chains or wherever there is a need to prepare an abundance of great coffee.

NUOVA SIMONELLI

APPIA LIFE- VOLUMETRIC- 2 GROUP-BLACK

Appia Life is able to prepare up to 250 cappuccinos (2 groups version) on daily basis. The machine consisteny is based on two technologies: SIS system, allowing a consistent result, and Easycream that grant a quick and automatic making of dense and velvety milk cream.

NUOVA SIMONELLI

APPIA LIFE- VOLUMETRIC- 3 GROUP-BLACK

Appia Life has DRYTEX THERMICAL technology insulation that reduces 13% of energy consumption compared to the Appia II. Thanks to its new thermal system, new materials, and general optimization of the mechanical components, Appia Life has 20% less environmental impact compared to the Appia II.

NUOVA SIMONELLI

APPIA LIFE XT 2G-VOLUMETRIC- -BLACK

Appia Life makes productivity even more efficient thanks to its ergonomic style, improving the service speed and assisting the barista in day-to-day performances. Appia Life has been designed to be more efficient when it comes to maintenance too.

NUOVA SIMONELLI

APPIA LIFE XT 3G-VOLUMETRIC- -BLACK

The XT is a new Appia Life version with TFT displAy that grants a better user experience showing the most important data about dose program, counters, cleaning, setting and buttons and display brightness.

BREWING® GADGETS

NUOVA SIMONELLI

AURELIA II - VOLUMETRIC - 2 GROUP-BLACK

The Aurelia II Volumetric is the ideal machine for baristas looking for amazingly consistent coffee. Being volumetric this machine allows baristas to program desired volumes and consistently pull shots at that volume throughout the day.

NUOVA SIMONELLI

AURELIA II - VOLUMETRIC - 3 GROUP-BLACK

Aurelia II is the 2012-2014 World Barista Championship official espresso machine. Aurelia II is dedicated to demanding professional baristas because it guarantees even more advanced performance in terms of accuracy, extraction quality, flexibility and consistency of results.

NUOVA SIMONELLI

OSCAR II WITH OPV

Oscar II is a new generation of the coffee machine launched in the late nineties, which has conquered coffee lovers around the world. Oscar II is the professional espresso coffee machine which fits in all demands: from the domestic use for tasting good coffee or cappuccino till professional use.
Suitable for:
homes, offices, small coffee locations.

NUOVA SIMONELLI

MDX S

The MDXS On-Demand is a direct evolution of the MDX On Demand. Included in this evolution is a new design, bean hopper, metal doser lever, silent grind tech, and external dosage regulator. Perfect for medium size shops, this grinder can quickly and accurately dose high quality shots in a matter of seconds.

PROFITEC

PRO 500

ID: 10500UK

The classic design of the polished stainless steel housing with a high-end, massive E 61 brewing group is rounded off by the nostalgic rotary valves. These are low-wear and easy to handle, thanks to spring-loaded technology. With the practical PID display, you have the option to set the steam temperature and therefore the pressure in the boiler for milk frothing and to change the extraction temperature at the brew group according to your needs.

PROFITEC

PRO 700

ID: 10700UK

The PRO 700 is a semi-automatic, dual boiler espresso machine with PID-display. The temperature for both boilers may be adjusted individually.
The display shows the brewing time with up to the second accuracy. The steam boiler has a dedicated on/off switch. The PRO 700 may be used with water tank or fixed water connection.

PROFITEC

E61 FLOW PROFILE VALVE P1065

ID: P1065

E61 Flow Control Device allows you to adjust the flow of water in your brew group to manually profile your extractions. This custom component is a stainless steel needle valve, which allows the user to vary the amount of water flowing through the group. Variable flow control allows for lengthy pre-infusion for more even saturation and extraction of your espresso.

ACME
BOBBY MUG 300ML

Outside diameter: 82 mm
Base diameter: 48 mm
Height: 76 mm
Volume: 300ml
Has been designed a range of mugs that embody all the feelings of comfort form and function for the home and cafe user. By using magnesium porcelain, we were able to achieve a lighter, finer cup that's still strong.

ACME
UNION MUG 230ML

Outside diameter: 86mm
Base diameter: 74mm
Height: 87mm
Volume: 230ml
The Acme 230ml Union mug is perfect for a hearty milk-based coffee or filter coffee. Modelled after a 1930's Aotearoa, New Zealand rail union cafeteria mug. Comes in a range of three beautiful colours plus white and eggshell.

AEROPRESS
GO TRAVEL COFFEE PRESS

ID: 10R11

Delicious coffee anywhere: Optimized for traveling, camping, boating or just at work
Simple: Smart design is easy to use and clean up takes seconds
Good to Go: Engineered to be the perfect traveler, it is compact, light weight and durable
Superb taste: Free yourself from hotel coffee
Includes: Mug with lid, 350 micro-filters in a storage carton, filter cap, filter holder, stirrer and scoop.

AEROPRESS
COFEE MAKER

ID: 80R11

Rapid, total immersion brewing process makes delicious full flavored coffee without bitterness
Makes 1 to 3 cups per pressing in about one minute
Brews regular American style coffee
Brews espresso style coffee for use in lattes and other espresso based drinks
Microfilter means no grit in your cup (unlike a French press)

AEROPRESS
REPLACEMENT FILTERS

ID: 81R24

Replacement Filter Package for the Aeropress Coffee & Espresso Maker Filter
Diameter: 6.4cm
Quantity: 350 Micro-Filters/pack

AEROPRESS
REPLACEMENT FILTER CAP

ID: ABTC

Replacement filter cap for Aerobie Aeropress coffee maker
Same size, color, and material as the original part
Guaranteed to fit Aerobie Aeropress
BPA-Free Polypropylene Plastic

BREWING GADGETS®

BARISTA HUSTLE

TAMPER WITH CASE 58.4MM

ID: 3001MB58

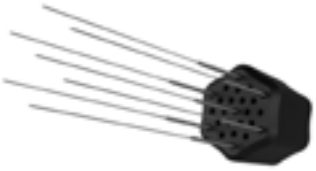
The most repetitive motion behind bar deserves better. The Tamper's 58.4mm diameter fits a VST basket exactly while the unique double flange not only eliminates the frustrating vacuum effect but also helps keep you vertical. Made with military-spec type III hard anodized aluminium with a 304 stainless steel flat base, the Barista Hustle Tamper is durable but lightweight to minimize fatigue.

BARISTA HUSTLE

SPACE BLACK PITCHERS 400/600ML

400ML ID: 3000SB40
600ML ID: 3000SB60

Inspected to be perfectly aligned, down to one millimeter
Made of thick 0.9mm stainless steel
Perfectly aligned handle and spout for consistent and symmetrical pours
Laser welded, fully flush handle, guaranteed to last 10 years
400ml / 600ml capacity



BARISTA HUSTLE

THE COMB

ID: BHCMBI

Silicone Rubber handle
501 Grade Stainless Steel Material
Rounded needles for safety
25 pockets and 30 needles
0.35mm diameter
Take on the Weiss Distribution Technique or WDT; one of the longest standing espresso distribution methods. The handle is made of soft silicone rubber with 25 thoughtfully placed holes for a wide array of needle comb-inations.

BREWING® GADGETS

BARISTA HUSTLE

TITAN BREW STAND

ID: 3003SSR58

For 58mm Basket
304 stainless steel material
Mirror Finish
Cleanliness is next to baristaliness. If your workflow involves coffee grinds and a portafilter, chances are the Ring can help. Magnetised, mirror polished interior, and fully stainless steel; we couldn't make it any better.

BARISTA HUSTLE

TEA SCOOP

ID: CB24PC-Pack

Comes with 24 x bowls
100% food grade high density polyethylene (HDPE)
Stackable
Heat-preserving
Ceramic cupping bowls are far from perfect. They're expensive to ship, break easily, and steal heat from the coffee.

BARISTA SPACE
BLACK TAMPING STATION

ID: T1-53

For 53mm portafilter
For optimising the tamping pressure
Ensures optimum espresso extraction
The rubber ring ensures the filter holder sits gently and doesn't slide around during tamping
Not dishwasher-safe

Made of natural oak wood

COMANDANTE

RED CLIX RX35

ID: 1960

Horizontal shift per click of Target Maximum in bimodal Normal Distribution of total particles.
Change of particle size per click (typical): 15 Micron / 0,015 mm
Narrow Blade Gap at burr exit: 5,5 Micron per click (typical)

CUPTIMO

MANUAL VACUUM COFFEE BREWER

ID: CUPTIMO

Full flavor because of zero-bypass vacuum extraction: As all brewing water is pulled through the full height of the coffee bed, an even, efficient extraction is achieved and the occurrence of channeling is minimized.
Reduced bitterness and astringency through the reduced brew time and because all water has to pass through the full height of the coffee bed, effectively filtering out the big coffee compounds causing astringency.
Grind size according to taste preference: Most brewing methods require a specific grind size to work properly. cuptimo offers the possibility to choose grind size of a very wide range (2 to 20+ clicks on the Comandante Grinder). Finer grinds make it easier to extract light roasts as well as producing an even extraction as the particle size variation is reduced.

DURALEX

PICARDIE CLEAR GLASS 6 SET OF 9CL

ID: 1023AB-9CL-6PC

Known as the “original French tumblers”, the tempered Picardie glasses are functional and stylish - they feel extremely comfortable in your hand. GOAT STORY

GINA SMART BREWER BLACK & WHITE

BLACK ID: GINA SMART-B
WHITE ID: GINA SMART-W

Gina consists of three main parts - conical dripper with a valve, base with a built-in scale with a Bluetooth module, and glass server. The set also includes an additional vessel for preparing cold-drip coffee.
The device is modern and well-designed - the dripper is made of porcelain, there is a borosilicate glass carafe, and other elements are made o stainless steel. All of the parts are fitted perfectly, and the construction is solid.
The set includes:
- a complete Gina Brewer with scale and Bluetooth module
- glass carafe (750ml)
- 50 drip paper filters
- 50 cold brew paper filters
- USB cable

Colour: Black & White
Width: 16.3 cm
Height: 34.5 cm
Depth: 13.5 cm

CUPPING SPOON KASUYA MODEL

ID: KCS-1-MB

This sleek matt black cupping spoon is made of smooth stainless steel. By keeping the visual information on the liquid such as color and clarity as minimal as possible, and the smooth, hygienic material free from lingering odors and stains, it lets you sorely focus on the aroma and mouthfeel without getting distracted.

BAMBOO STIRRER PADDLE

ID: BA-15

Soft, efficient, a good length for any brew method, and paddle shaped to give a more even agitation. It's also really easy to keep clean as all it requires is a wipe down with a damp cloth after use, then left to dry.

100 sheets per pack of white paper filter for the Kalita fan shaped dripper
Flat cone Shape
For use with brands such as BonaVita, Hario, Tiamo, Clever and other V Shape drippers

KALITA

400ML JUG

ID: RW SERVER - 500ML

Materials: Heat-resistant glass
Height: 93mm
Product weight: 215g
Can be used in a microwave

KAMEL

15PCS BEAN CELLAR & MINI HOPPER SET

ID: BCMH SET

Enjoy many interesting coffee flavors by dividing various various kind of beans. It is a special reusable sub-dividing container and Kamel Bean Cellar that applies simple, partial and portable values that prevent the dispersion and loss of the original flavor of the beans caused by opening and closing.

KAMEL

15PCS BEAN CELLAR

ID: BC25G*15P

Size: 25g
Dimensions: W 37mm X H 92mm
Material: PP, Silicon, PET
Package
It's a composition of 15 Bean Cellars.

KAMEL

MINI HOPPER

ID: HI 98129

Dimensions(WxDxH mm): 78x25x54
Material: Stainless Steel(304SUS)
It is a small but useful item of Kamel. Especially if you have Kamel Bean Cellars, it can help you subdivide ground coffee into Bean Cellars. And it is made with stainless steel(304SUS), so it is more durable than other plastic funnel.

Top Diameter: 7.62 cm
Bottom Diameter: 5.39 cm
Maximum Diameter: 7.62 cm

MELODRIP

STAINLESS

The original melodrip with a stainless steel handle is now in the hands of top competitors, coffee professionals, and home enthusiasts world wide.
This new approach to brewing is derived from thousands of hours of research and feedback from the most discriminating coffee brewers in the specialty coffee space and its benefits continue to be explored by hundreds every day.
Simply follow the instructions we include, which recommends a mix between bare kettle and melodrip showering.
Simply hold melodrip close to your pourover brewbed and gently pour water over it as you would a regular pourover.
The resulting cup will be strikingly clean, sweet, and less bitter even at high concentratio

JARAH HANDLE | BLACK HANDLE | OAK HANDLE | WALLNUT HANDLE | CHECKERBOARD HANDLE

PULLMAN

HANDLE WITH BIG STEP BASE, MK II 440C

Mark II is a fancy way of saying “version 2” and we like to be different... Also, the boss man kind of liked it.
440C however, is more deliberate. This is a 440 grade stainless steel, and has the highest carbon content for a 400 stainless steel series.
It is then heat-treated to reach 43-45 HRC. (let’s just say it’s freaking hard!)

JARAH HANDLE | BLACK HANDLE | OAK HANDLE | WALLNUT HANDLE | CHECKERBOARD HANDLE

PULLMAN

HANDLE WITH 58MM BASE

Stainless steel bases are precision-machined with True Tamp rings for a consistent and level tamp
An ergonomic synthetic rubber compression zone for maximum comfort; also minimises high-volume fatigue

JARAH HANDLE | CHECKERBOARD HANDLE | OAK HANDLE | WALLNUT HANDLE

PULLMAN

PORTAFILTER HANDLE WITH ROCKET BOTTOMLESS GROUP HEAD / E61

Add to your Premium Pullman collection with a stunning Portafilter handle. Match your decor or your Pullman Tamper and be the envy of the Barista community with a stunning set.

JARAH HANDLE | CHECKERBOARD HANDLE | OAK HANDLE | WALLNUT HANDLE

PULLMAN

PORTAFILTER HANDLE WITH LA MARZOCCO BOTTOMLESS GROUP HEAD

As perfectly designed and balanced as your tamper, your espresso machine will thank you for the extra glam.
The Pullman Portafilter handle will fit all unscrewable portafilters. Available with 10mm or 12mm adapter so it can be screwed into your own portafilter group head.

SOY

COPPER TURKISH COFFEE POT, SILVER LINING INSIDE

Material: 1.5mm thick copper allows ideal heat conductivity.
Shape: The smaller rim diameter with a wider bottom allows for firm foam development without the need to overheat the slurry.
Spout Shape: Prevents loss of foam during pouring.
Handle: The bronze handle is the proper length and angle for ergonomic pouring as well as the attachment to the pot helps to prevent the handle from overheating.
